SUMMARY

Frontend Developer with about 2+ years of experience building and maintaining 12+ enterprise grade web applications being used by an average of 20+ users.

EXPERIENCE

NIIT - National Institute of Information Technology
Lagos, Nigeria

Web Development Coding Bootcamp
August 2023 - November 2024

- Demonstrated proficiency in designing well-structured Frontend web applications, including the creation of a personal website - portfolio-adebayo114s-projects.vercel.app, showcasing ability to effectively integrate front-end components for a cohesive user experience.
- Collaborated with a team of developers to design and implement modern and responsive web applications, using tools like React JS/tsx, Javascript, SASS/CSS and HTML, PHP.
- Investing in continuous self-development through online web development classes on Udemy, FreeCodeCamp, Scrimba and Cousera.

Venture Tribe

Lagos, Nigeria

Frontend Developer Intern
Aug 2023 – Nov 2024

- Collaborated with a team to develop and enhance a website, contributing to both design and functionality using modern frontend technologies.
- Gained hands-on experience in web development, working with frameworks and tools to deliver a user-friendly platform.
- Strengthened teamwork, communication, and problem-solving skills while adhering to project timelines and goals.
- Built connections with industry professionals and refined technical expertise for future career growth.

SKILLS

HTML, CSS, SASS/SCSS, Javascript, React Js, React tsx, REST API, React Testing Library, CSS Modules, Styled Components, MaterialUI, Semantic UI, Communication, Team Work., Tailwind CSS, Bootstrap, GitHub, Git , Critical Thinking

EDUCATION

- **Messiah Praise International Model School - Ogun State, Nigeria**
Jan - 2016 – October - 2021

SIDE PROJECTS

Pc Zone (Website)

React Project

Responsive E-commerce Pc Website - [Link](#)

Aug 2024

- Architected and structured 100% of the entire frontend codebase.
- Converted the UI/UX design into a functional responsive web application page.

Tech Used: React, TypeScript, JavaScript, CSS, Bootstrap.

Flames

React Project

A game project. - [GitHub](#)

sept 2024

Developed a personal game called "Flames" that compares two individual names and provides a result based on predefined game rules. The project showcases proficiency in core JavaScript, React, TypeScript, and CSS, with no backend integration involved. The implementation focuses on utilizing modern front-end technologies and algorithms for a smooth and interactive user experience.

Tech Used: React, TypeScript, JavaScript, CSS

Smoot-Laundry

[GitHub](#)

• Built and deployed "Smooth Laundry" — a responsive laundry service website using **React.js**, **CSS3**, and **JavaScript**. Designed reusable components, implemented client-side routing, and deployed the site using **Vercel** for fast performance.

Tech Used:

- **React.js** – component-based UI development
- **JavaScript (ES6+)** – logic, interactivity, and state management
- **CSS3** – for styling and responsive layout (no Tailwind used)
- **React Router** (*if applicable*) – for client-side routing
- **Git & GitHub** – version control and repository management
- **Vercel** – for live deployment and continuous integration
- **Responsive Web Design** – optimized for all screen sizes
- **Clean UI/UX** – focused on user-friendly navigation and visual clarity
- **UI/UX** – focused on ease of use for laundry service customers
